

# **Initial Community-Based Maps**

Maps A-Z are all the community maps that have been submitted by the community or designed with community input.

The CTAD Committee reviewed every map at their March 11 meeting to create their recommendation to the Board on March 20.

Map E was a duplicate and has been removed.

"This Map is based on Map 4 in the South, but the North has been divided following the Sunnyvale School District boundaries to the best of my ability. District 2 is almost entirely students at CMS Bishop, San Miguel, Fairwood, and Lakewood and District 4 is almost entirely students at SMS Vargas and Cumberland and most of Cherry Chase and Ellis. Elementary and Middle School populations are important communities of interest, as neighborhoods often identify closely with the school they attend."

"Southern part of district below Fremont : strives to keep Fremont+Homestead areas together, and Monta Vista+Lynbrook areas together, while following major roadways as boundaries because they tend to be the borders of neighborhoods. Compared to my prior 2 submissions, realized that I needed to keep population variance within tighter limits so this map is more likely to be legal than those were."

Very low population variance rate throughout all 5 trustee areas. 2. No minority dilution by keeping the northern parts of the district and the southern parts of the district compact. 3. North areas have 2 seats, South areas have 2 seats, 1 central area, so the district-wide decision will not be dominated by only Northside or only Southside, which have very different needs. 4. The northern parts are split east-west-wise, per the preference we heard from board meetings and CTAD meetings. If wrong, feel free to split North-South-wise. 5. The southern parts are split east-west-wise, mainly for the geographic spread and historical divide by major roads."
